

# CollectMax™

Advanced Collections Software

## Document Management Module

- Eliminates the need for a costly external imaging program.
- Scan, import, retrieve, email, and print documents directly from an account. Scan to either TIF or PDF formats. Supports "drag and drop" as an import method.
- Quickly view an image or file by clicking on the note in the account history.
- Identify an image or file category with user-defined type codes.
- Search for an image or file using search criteria such as creation date, operator, type, or a keyword search.
- Export images based on specific search criteria. Also supports custom file naming of exported images, including specific text and variable information.
- Import a batch of images into the proper account based on image filename.
- Requires a TWAIN compatible scanner that supports multiple page TIF (tagged image file format).
- The Document Management module requires CollectMax™ Version 8. Contact JST Sales for more details.
